

Larkfield Analytics Group Personal Pension
Scheme guide for employees, October 2026
Fictional document for Fork testing.

The scheme is provided by Harbour Pensions (a fictional provider).

2. Contributions

Larkfield pays 3% of your full salary into your pension.

You pay 5% of your full salary as standard. You can choose to pay more.

Contributions are worked out on your full basic salary.

3. Tax relief

The scheme uses relief at source: Harbour Pensions claims basic-rate tax relief from HMRC and adds it to your pot.

4. Salary sacrifice

You can choose to pay your contributions by salary sacrifice.

Ask HR or our payroll provider for the form.
